

FALCON 900 | N345KM

The **Falcon 900** is able to complete intercontinental flights, and still maintain a short take-off distance providing a great balance between speed, range, and payloads. The roomy cabin on this aircraft, measuring more than thirty-three feet long, is configured with eight individual seats and two couches that convert to beds, allowing the passengers ample space to relax, work and sleep in comfort. The three engines provide ample thrust on takeoff to perform well at high altitude airports and short runways. The aircraft has been fully updated and has state-of-the-art cabin amenities, electronics, and unlimited high speed domestic Wi-Fi.

Fully refurbished interior in 2022 | Entered charter for the first time in 2021 | Free access to the fastest domestic Wi-Fi internet access available by Gogo | Airframe 1986
